

Mister Tipster Custom Face Plate Template

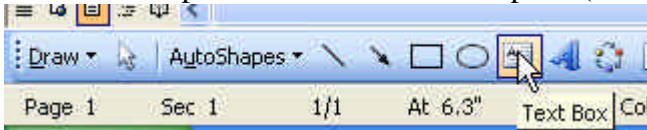

FeedVision, LLC
© 2006 FeedVision, LLC

Use this template to submit your custom graphics with your business order. Minimum quantities apply.

Suggestions:

1. Use a Text Box to place text within the face plate (example at the right):

This text is in a textbox, with "No Line" border, "No Fill" background and "Move object with text" is unchecked.

2. Backgrounds that extend slightly outside the boundaries are OK. We use the Rectangle object for backgrounds.

3. Tolerances are $\pm 1.0\text{mm}$; don't place graphics or text right up to an edge as they may get cut off.

Sample Objects (edit and move to the template above): Text Box, Rectangle (for background)

Sample Text Box
